

SMART CONTAINERS

Using blockchain to disrupt the logistics industry

Smart Containers combines cutting-edge container technology and IoT sensors integrated into a logistics ecosystem. All on the blockchain. Based in Crypto Valley Switzerland. 

“In Q1 2018 alone we won three of the largest pharma companies as customers for our pharma application. We can now expand to food distribution with what we have learned. “

Richard Ettl – CEO & Co-Founder

„Our vision is to create a fully autonomous, integrated container based on blockchain technology.“

Nico Ros – CTO & Co-Founder

Where we are today:

Technology leading container provider. We rent or sell high-tech containers to pharma and food companies.

- ◆ Built on strong technological foundations with over 50 man-years of research and close to 100 patents
- ◆ 75x more reliable than market leader with less than 0.1% temperature deviation
- ◆ Integrated IoT sensors based on blockchain (largest fleet of IoT containers in airfreight to date)

Smart Containers Group includes two operative and fast growing division companies:

Safest Pharma Containers.
Worldwide.

FOOD
GUARDIANS

Fresher, qualitative food.
Glocally.

Where we want to go tomorrow with the funds from our ICO:

- ◆ Scale SkyCell to be the biggest Pharma Container supplier worldwide. Include B2C application, the future of pharma distribution directly to the patient.
- ◆ Build up FoodGuardians in food logistics as second application next to SkyCell in B2B and B2C.
- ◆ Create the LOGI CHAIN, an open logistics ecosystem to facilitate shipment organization and administration by using blockchain technology. This will allow us to create a fully autonomous container that invoices itself through crypto currencies. Please read our Whitepaper to learn about the LOGI CHAIN project.

Initial Coin Offering Summary

Smart Containers Group is emitting two coins to raise USD 40 m

SMARC Coin: USD 36 m

Profit share coin to scale SkyCell and FoodGuardians.

20% of future dividends and potential exit profits from subdivisions will be paid out in ETH proportionally to tokens in circulation.

- Total Token Supply: 150 m SMARC
- Tokens Offered in ICO: 120 m SMARC
- Hard Cap: USD 36 m
- Full Token Price: USD 0.432 / SMARC
- Pre-Sale: end of May, by invitation. -25% discount
- Crowd Sale: June; 11% of tokens
 - first third: -15% discount
 - second third: -10% discount
 - final third: -5% discount
- Use of collected funds: USD 36 m; 3-year plan

LOGI Coin: USD 4 m

Currency to fuel the LOGI CHAIN ecosystem (payment of smart contract transactions). Usage by logistic players to profit from a seamless and integrated shipping process by putting all relevant documents on the blockchain.

- Total Token Supply: 100 m LOGI
- Tokens Offered in ICO: 20 m LOGI
- Hard Cap: USD 4 m
- Full Token Price: USD 0.285 USD / LOGI
- Pre-Sale: end of May, by invitation. -25% discount
- Crowd Sale: June
 - first third: -15% discount
 - second third: -10% discount
 - final third: -5% discount
- Use of collected funds: USD 4 m; 3-year plan

Why participate?

- Company has been operative for over five years with high margins and excellent growth potential.
- Game changer in the logistics industry - we've successfully created the hardware; now we're focusing on software:
 - Invoicing through smart contract payments in cryptocurrencies
 - Tracking using blockchain technology
 - Creating the world's first autonomous shipping container
- Join us in revolutionizing logistics through blockchain.
